Background/Alternatives
In July 2021, in order to provide the necessary foundation for stronger and more accountable EEO programs, the Board of Governors of the California Community Colleges adopted new Equal Employment Opportunity (EEO) regulations. As a part of the framework, funding appropriated by the Legislature is contingent on districts annually reporting their EEO-related activities.

- recorded, reviewed, and reported the data required regarding qualified applicant pools and longitudinal data;
- reviewed and updated, as needed, the Strategies Component of the district's EEO Plan;
- investigated and appropriately responded to formal harassment or discrimination complaints filed pursuant to the process found beginning at Section 59300 of title 5 of the California Code of Regulations; and
- expended Equal Employment Opportunity funds in accordance with the purposes set forth in subdivision (c) of section 53030.

The Board revised and approved the district's EEO Plan at its regularly scheduled meeting on May 14, 2024.

Government Code Section 53060 authorizes the district to contract for specialized professional services without competitive bidding. The executive director of general services has determined that these services qualify as "professional and specialized administrative services."

Background/Alternatives

Proposed improvements include demolition of existing site elements, construction of a new boiler and chiller yard, connection to the existing Gillmor Center hydronic systems, and associated hardscape and landscape restoration.

Coordination
The vice chancellor of facilities development and operations-initiated discussions with P2S Engineering to develop an approach for the central plant to supplement the existing geothermal field serving the Gillmor Center at Mission College. These initial discussions included Facilities department staff and the Construction Management team to address existing site conditions and ongoing projects, such as lighting, paving, and geothermal field testing.

Follow-up/Outcome
Upon Board approval, the vice chancellor of facilities development and operations will finalize the Engineering Services Agreement with P2S Engineering to refine project details and develop drawings necessary for permitting and bidding. Funding Source/Fiscal Impact
Funding for this contract increase will be provided through the Measure W Bond Program and Capital Improvement Fund.

Reference(s)
This item is associated with the implementation of the West Valley College Facilities Master Plan, the WVMCCD 5-Year Construction Plan, and the Measure W Bond Program.

Background/Alternatives
On September 10, 2024, the Board approved the award of a design-build contract to Hensel Phelps Construction Co. in the amount of $6,951,832.00 for the West Valley College Physical Education/Wellness Center project. On October 10, 2024, the District entered into a design-build pre-construction services agreement, which established the terms and conditions for the design-build entity's design professional services. These services include programmatic design, development of construction documents, and submission to the Division of the State Architect (DSA).

This project uses a progressive design-build delivery method, which allows key construction trade packages to be competitively procured and incorporated into the project in phases as the design advances. As part of this process, the district in collaboration with Hensel Phelps conducted a competitive procurement for the Mechanical, Electrical, Plumbing, and Fire Protection (MEPF) trades.

The selected MEPF trade partners, as the third phase of the project will work collaboratively with Hensel Phelps and Cannon Design during both the design and construction phases of the project. Their involvement supports design coordination, constructability reviews, and identification of cost-saving opportunities. The trades will virtually design and coordinate their work using three-dimensional Building Information Modeling (BIM), which helps reduce potential conflicts between building systems prior to construction. This approach minimizes construction-phase issues and results in time and cost savings for the district.

The third phase of the Guaranteed Maximum Price (GMP) buyout represents approximately 31% of the project's final GMP.

Board approval is requested to authorize the formal incorporation of the MEPF Guaranteed Maximum Price (GMP) scope into the contract. This action will allow the project to proceed with both design-assist services and construction work by the MEPF trade partners while maintaining alignment with the approved project budget.

Contract Change Requests:

- Change Order #003 ($29,337,448.00) phase 3 includes:
  - PCO 023: Establish Guaranteed Maximum Price (GMP) funding for design build MEPF trade partners, including Cosco Fire Protection, Frank M. Booth, and Cupertino Electric.

Financial Summary:

· Original Contract Amount:	$6,951,832.00
· Change Order #001:	$254,736.00
· Change Order #002:	$1,746,848.00
· Change Order #003:	$29,337,448.00
· Total Change Order Amount:	$31,339,032.00
· Adjusted Contract Amount:	$38,290,864.00

Coordination
This effort was coordinated with the vice chancellor of facilities development and operations, the executive director of bond construction, the associate vice chancellor of intercollegiate athletics, the general services department, Kitchell CEM, and Hensel Phelps.

Follow-up/Outcome
Upon Board approval, the district will execute an amended agreement with Hensel Phelps, increasing the contract by $29,337,448.00 for the West Valley College Physical Education/Wellness Center Project.
